1946 SUPPLEMENT

STATISTICAL REPORT

ON THE PRIMARY TEXTILE INDUSTRY

IN CANADA

PREPARED BY

THE RESEARCH DIVISION

WARTIME PRICES AND TRADE BOARD

1946 SUPPLEMENT

STATISTICAL REPORT ON THE PRIMARY TEXTILE INDUSTRY

IN CANADA

PREPARED BY THE RESEARCH DIVISION

WARTIME PRICES AND TRADE BOARD

Late in 1946 the Wartime Prices and Trade Board published a "Statistical Report on the Primary Textile Industry in Canada," summarizing information supplied to the Board between 1942 and 1945 by all branches of the textile industry. In response to requests for more recent information, the Board is now publishing this 1946 supplement to the previous report.

The tables which follow show 1946 by quarters under the same headings as were used in the earlier publication, so that direct comparisons between the two reports are possible. As was pointed out before, figures on the production of yarns and fabrics represent total Canadian production without regard to the industrial classification of the producer. As new companies begin producing they are added to the list of those who are asked to report regularly. Because there are a number of small consumers who do not report, yarn consumption figures are not complete, but do represent more than 80 per cent of the total.

Statistics of the production of wool yarn and fabric were collected by the Wool Administration of the Wartime Prices and Trade Board. The knitting industry which is often classified within the Primary Textile Industry has been regarded, for the purposes of Board administration, as a part of the Garment Industry, so that the figures being published on hosiery and other knitted goods will be found in the report on the Secondary Textile Industry. In cases where a reported item is produced by only one or two companies, it has been omitted or combined with another item in order to avoid disclosing the production of individual companies.

In 1946 supplies for the use of the armed forces were extremely small and the Board did not collect figures on production for military use after the end of September of that year. For this reason it was decided to show only total production and consumption of the various types of yarns and fabrics.

In the earlier report on the Primary Textile Industry there were tables showing the apparent total and civilian supply of cotton and wool yarns, and cotton, rayon, and wool broadwoven fabrics for the years 1942 to 1945. In this supplement these series have been carried back to 1935 and up to 1946, so that it is possible to compare our supply position before the war with that of present time.

These quarterly reports were invaluable to this Board throughout the war in allocating the available supplies between military and essential civilian requirements, and since the end of the war they have been most necessary in determining the

timing of the government's decontrol program.

The Dominion Bureau of Statistics is now collecting these figures, and once the requirements of the Board are satisfied, will continue to do so in a modified form in order that the information contained in these reports may be available for general use on a current basis.

July 28, 1947.

N.B. For footnotes see following page.

APPARENT SUPPLY OF COTTON YARNS

1935-1946

Unit - 1000 lbs.

- (1) Apparent supply of cotton yarns is production plus imports. Exports are negligible.
- (2) Domestic production 1935-42. D.B.S. Production of yarn in the cotton yarn and cloth industry plus estimated yarn produced in other industries.
1943-46. Textile Survey, Research Division, W.P.T.B.
- (3) Imports of cotton yarn are taken from the D.B.S. "Trade of Canada" and include all items under the section "cotton yarn, thread, cord and twine".
- (4) Yarn consumption for Munitions and Supply orders are from the Textile Survey, Research Division, W.P.T.B. Figures are probably underestimated due to lack of coverage and have not been collected since September 30, 1946.

N.B. For footnotes see following page.

APPARENT SUPPLY OF COTTON BROADWOVEN FABRICS

1935 - 1946

- (1) Apparent supply of cotton broadwoven fabrics is production plus imports minus exports.
- (2) Domestic production 1935-42 D.B.S. production of fabrics including mixtures minus Canadian made fabrics consumed by other plants and firms and imported fabrics plus estimated blanket production.
1943-46 Textile Survey, Research Division, W.P.T.B.
- (3) Import figures are recorded in square yards and are U.S. and U.K. exports of cotton fabrics to Canada. In order to show quarters, U.S. and U.K. annual figures are broken down in same proportion as Canadian figures which are recorded in pounds.
- (4) Exports of cotton fabrics are taken from the D.B.S. "Trade of Canada" and estimated exports of cotton tire fabrics are excluded.
- (5) Consumption of cotton broadwoven fabrics for Munitions and Supply orders are from the Textile Survey, Research Division, W.P.T.B. Figures are probably underestimated due to lack of coverage and have not been collected since September 30, 1946.

APPARENT SUPPLY OF RAYON BROADWOVEN FABRICS (1)

		1935 - 1946		Unit - 1000 yds.			

APPARENT SUPPLY OF RAYON BROADWOVEN FABRICS

1935 - 1946

- (1) Apparent supply of rayon broadwoven fabrics is production plus imports minus exports.
- (2) Domestic production 1935-42 - D.B.S. production of rayon fabrics, including continuous filament, spun rayon and mixtures.
1943-1946 - Textile Survey, Research Division, W.P.T.B.
- (3) Imports are estimated by the Silk Association of Canada. In order to show quarterly imports, annual figures are broken down in the same proportion as Canadian import figures which are recorded in pounds.
- (4) Exports of rayon fabrics are taken from the D.B.S. "Trade of Canada" and include tire fabrics.

PRODUCTION OF RAYON FABRICS
